🚀 Hey 3D Printing Enthusiasts! 🚀

We have some incredibly exciting news to share! Co Print is collaborating with **SOVOL** to integrate the KCM Set into the SV08 model. With this collaboration, Sovol's new SV08 printer not only offers a large print volume but also creates value for users by offering multiple filament options! 🌈

We are excited to share this important step towards expanding the ChromaSet ecosystem in the market and encouraging brand partnerships for Co Print! 🎨

👉 Also, be sure to visit the Co Print Blog for more information on this great news!
